

## Workshop

### Best practice on data interoperability for MSFD

**October, 25<sup>th</sup> 26<sup>th</sup> 2016 Joint Research Centre**

Via E. Fermi 2749, Ispra, Italy ,Building 101, Room 101/1003

The workshop is organized in collaboration with JRC in two half days. The first one will be dedicated to a shared session with the INSPIRE Marine pilot project, to present the work done by the two projects and to discuss/analyze the action/characteristics requested by the two directives INSPIRE and MSFD in the data management and reporting activities from Member States to the Commission and the EEA.

In the second half-day, dedicated to ActionMed project, after two presentation on the role of the Regional Sea Convention in the data management, there will be an open discussion on the possible actions: a) within the project frame(short term); b) before the end of 2018 (medium term); c) after 2018 (long term).

#### Provisional Agenda

October 25 <sup>th</sup>	
13.30	Welcome & introduction
14:15	The ActionMed project
15.00	INSPIRE marine pilot - overview
15:30 – 17.30	Interoperability – Lesson learnt from projects
17.30	Wrap up
20.00	Dinner
October 26 <sup>th</sup>	
9.00	Welcome & introduction
9.15	The role of regional sea conventions in the MSFD by Dick Shaap (tbc)
9.45	INFO/RAC – ISPRA role in the Mediterranean by Claudio Maricciolo (tbc)
10.15	Focus on the Italian data flow by Giordano Giorgi (tbc)
10.45	Break
11-00 – 13.00	Open discussion
13.00	Wrap up and final remarks
